ReDI School of Digital Integration

CERTIFICATE OF ACHIEVEMENT

This certificate is awarded to

Alona Kalko

for successful completion of

Web Development I (Fundamentals)

OUTLINE:

This course provides students with a solid foundation in web development covering the essential building blocks of modern web design and interactivity. Students will learn how to create functional websites and web applications using HTML, CSS, and JavaScript. There will be ample opportunity for hand-on practice in class, and apply their knowledge in a final project.

CONTENTS:

- HTML: syntax, tags, lists, images, tables, forms
- CSS: selectors, layout, Flexbox, Grid, images, gradients, colors, styling text, animations
- JavaScript fundamental: syntax, variables, operators, functions, control structures
- Classes and object oriented programming
- Array methods, string methods
- DOM manipulation
- Callbacks and promises
- Version control, debugging

This course was held for a period of 52 hours from 12/03/2024 to 21/06/2024.

This **certificate of achievement** confirms that the student has achieved all the learning objectives via assignments and/or a final project.
